Forecast For Southwest England
Issued by Met Office Exeter
at 0400 on Wednesday 03 Mar 2021

++ Valid for broadcast between 0600 and 1800

Headline:
Rain showers turning heavy at times.

Today:
A cloudy day with rain showers becoming heavy at times. These will be most frequent over the west at first, before easing and becoming more frequent over the east later. Perhaps the odd rumble of thunder too. Feeling quite chilly. Maximum temperature 12 deg C (54 deg F).

Tonight:
Showers easing through the evening and overnight, however isolated light showers will remain. Low cloud persisting with a risk of fog patches forming.Feeling quite chilly. Minimum temperature 3 deg C (37 deg F).

Thursday:
After a foggy start for some, Thursday will be a largely dry day under cloudy skies, although isolated light showers remain. Feeling chilly with a frost risk further east overnight. Maximum temperature 10 deg C (50 deg F).

Outlook for Friday to Sunday:
Largely dry with patchy cloud and sunny spells on Friday. Dry and bright on Saturday before cloud and outbreaks of rain on Sunday. Feeling colder throughout with frost risk.
